REST & Graph APIs

DNS & Domain Management

Objective

Self-taught full-stack web developer with a passion for understanding and innovation seeking to break in to the web3 space to solve creative problems & ultimately propel the organization forward in 2022.

Projects & Experience

Pain in my Deck! — paininmydeck.com

2020-22

- Mobile-first Cards Against Humanity clone.
- Built from scratch using JavaScript (Vue.JS) and Firebase Cloud Functions.
- Enables real-time gameplay for anyone with a web browser. No additional software required.

Astronomical Products — lateskate.joewinger.com

2014-18

- Co-Founder, Lead Software Developer, Pitch Deck Co-Author.
- Secured \$10,000 in seed capital from a panel of local venture capitalists and entrepreneurs.
- Helped lead a team of 5 core players in developing the product LateSkate – a smart safety illumination system for longboards & skateboards.

College SnowJam — csj.joewinger.com

2014-18

- Operations & Technology Coordinator for Northeastern Pennsylvania's largest Music and Snowsports Festival.
- Created & maintained event websites, including conversion tracking & integration with our venue's ticket management system.
- Managed all company software, including email services, communication channels, and custom internal apps.
- Oversaw all operations on the day of the event, including 30 personnel and event staff, and over 800 event attendees.

Hyzer — hyzer.us

2021

- Web-based disc golf flight reference.
- Built from scratch using JavaScript (Vue.JS) on top of Gridsome to prioritize fast load times.
- Utilizes the Airtable API to generate pages for discs.

Education

Northampton Community College

2018-19

- Pursued two semesters of higher education in Marketing & Computer Science before making a financial decision to discontinue & spend my time exploring interests, learning, and working on side projects.

Interests

My personal interests include securities & derivatives investing, spreadsheets, Web3, DeFi, and the future of the internet.

I also enjoy playing disc golf, listening to music & audiobooks, and reading.
